- Willingness to Learn

EDUCATION

Bachelor of Science in Information Technology
UNIVERSITY OF MINDANAO - DAVAO CITY
2022 - 2026

WORK EXPERIENCE

Logistic Officer - Enigma Organization
University of Mindanao | November 2024 - 2025

- Oversaw event logistics, including equipment coordination and material distribution.
- Worked closely with the core team to plan and execute university events.
- Maintained accurate inventory of organizational supplies and assets.
- Strengthened leadership, planning, and coordination skills.

PROJECTS

KinderConnect - School Management System

Role: Back-End Developer | Front-End Developer | System Analyst

- Analyzed system requirements and designed workflows for enrollment, attendance, billing, class management, and user accounts.
- Developed back-end features using C# (.NET), MySQL, Windows Forms, and connected the system to XAMPP for database operations.
- Designed user interfaces using Windows Forms + Guna UI, ensuring a modern and intuitive design.
- Implemented modules such as Enrollment, Student Management, Attendance Tracking, Fee & Payment Management, Teacher/Staff Management, and Activity Tracking.
- Generated PDF reports using iTextSharp and helped implement automated backup processes.
- Responsible for UI layout consistency, form flow, and backend integrations.

CSL: Hotel Booking and Management System

Role: Front-End Developer

- Developed front-end interfaces using ASP.NET Core, C#, HTML, CSS, Bootstrap, and JavaScript.
- Created responsive UI screens including Login, Sign-Up, Partner Hub, Booking Page, Hotel Details, Booking Summary, and Payment Page.
- Designed user-friendly layouts for clients, hotel managers, and admins.
- Integrated UI with backend modules such as booking, room management, payment transactions, and user account settings.
- Ensured design consistency across client, manager, and admin dashboards while using Visual Studio 2022 as IDE.

SmartiCare: A Cross-Platform Mobile App for Cataract Detection Using Custom Convolutional Neural Network

Role: Front-end Developer | Project Manager

- Developed the mobile user interface using Flutter & Dart based on the system design.
- Integrated the front-end with Firebase Authentication and Firestore for storing user data, clinic lists, and scan history.
- Coordinated project timelines, documentation, testing, and deployment activities with barangay health workers.
- Managed app navigation structure, symptom assessment UI, eye scan workflow, and display of CNN-generated results.
